

INNOVATION VISION

ACTION PLANS FOR MOMENTUM AND MEANING

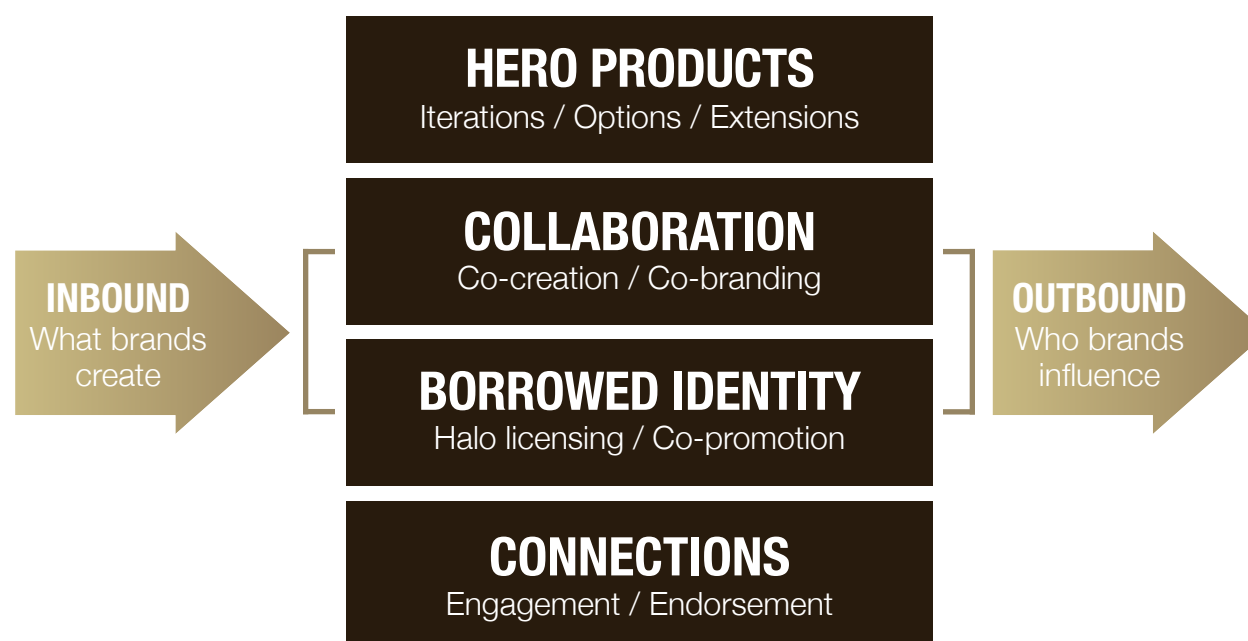

Marketers face unprecedented pressures—and opportunities—to innovate, but often forget the reasons for doing so. The minimum goal of innovation should always be to showcase brand values and vitality.

Today's most charismatic brands feed their legend with sequences of small, tactical innovations. Frequency fuels momentum. Relevance builds meaning and belief.

Innovation Vision is a planning service that maps out pathways for brands to achieve sustained, constructive innovation.

We build plans that maximise innovation's strategic impact using insight, analysis and ideation. We target actions that amplify brand strengths, and use the full spectrum of activation to seed surprise and delight.

Maximise the payback on your innovative effort. Let *Innovation Vision* point the way to brand momentum and meaning.

Action plans for sustained momentum:

- ✓ Sequences of small, smart innovations
- ✓ Sharp focus / wide repertoire
- ✓ Connecting brands to culture

Innovation contributes most when it frames brands as energetic and essential to culture.

With *Innovation Vision*, we map out ways for your brand to grow its cultural presence. Sequences of smart, lean measures are designed to drive momentum and meaning.

We offer know-how backed by deep experience and data. 20+ years in brand licensing and a vast campaign database help us identify pathways based on best practice and real-time tracking of 2,500+ innovative brands.

We follow the best exponents of brand innovation and the behaviours they use to grow their footprint. *Innovation Vision* points your brand to bigger, brighter horizons for less than the cost of a cruise.

“Gavin’s experience and innovation insights showed us ways forward that we never imagined.”

Dan Aylon, Executive Chairman – The SignatureGlass Company
